

INDEX

NUMBER 1: JANUARY-FEBRUARY

- Frederick Albert Cook, M.D.:
 Polar physician and explorer Ralph M. Myerson
 Oceanographic ships on stamps:
 HMS *Challenger* Anthony L. Rice
 Needles and Pins David F. Donavel
 Dolphins: One diver's
 touching experience Wayne Grover
 Reef shark attack! New clues raise new questions about
 why sharks bite people Doug Perrine
 Tunas: Athletes
 in a can Peter G. Bushnell and Kim N. Holland
 Inner space: Porosity of seafloor
 sediments Charles T. Feazel
 Ocean stations: Iron men and
 steel ships Robert L. Scheina
 A Fijian way of fishing Maryellen Timmons

NUMBER 2: MARCH-APRIL

- What is really killing the corals Eugene A. Shinn
 Caribbean coral reefs: Are they becoming
 algal reefs? Brian E. Lapointe
 The paper nautilus Norbert Wu
 The sea lions of Monterey Steve Rosenberg
 Purple-striped jellyfish Nancy Sefton
 Seafarers of the Caymans Trevor Holloway
 Eling Tide Mill H. James Saxton
 National Lighthouse Day

NUMBER 3: MAY-JUNE

- Shooting fish with sound Roberta Friedman
 Why the hammer head? Richard Martin
 Gulls: A sea guide Sean Kirkpatrick
 The reclamation of Holland Pat Canova
 In pursuit of the suburban squid Roland C. Anderson and Joyce E. Vanderwerff
 The secret lives of sponges Nancy Sefton
 Sushi, sashimi, and sickness:
 Raw fish and parasites Edwin S. Iversen
 Nature's one-upmanship C. Richard Robins

NUMBER 4: JULY-AUGUST

- After an oil spill: Saving the birds Douglas B. Lewis
 Squid: The Southern Ocean's unknown
 quantity Paul G. Rodhouse
 Marine crocodiles Tom Richie
 Crawfishing in the Bahamas Nicolas Popov
 The frogfish: Disappearing angler
 Farming sea-ears: An abalone
 success story Treve Johnson
 The besieged bays of the world: Brown tide and
 other novel blooms Trudy Bell
 Why the dolphins died:
 The answer-To date Sandra L. Hersh
 Chased out to sea Ben Masselink

NUMBER 5: SEPTEMBER-OCTOBER

- The inundation of our coastlines: Past, present and future
 with a focus on South Florida Harold R. Wanless
 Reef fish feeding: Amusement or nuisance? Doug Perrine
 Antarctic tourism '89 ... Yvette Cardozo and Bill Hirsch
 Snippets from *Nyanja Chronicles* ... Bruce R. Rosendahl
 The arrow crab: A spindly crawler
 Arms race on the grass flats Edwin S. Iversen and Darryl E. Jory
 A truly fresh fish Nancy Vander Velde

NUMBER 6: NOVEMBER-DECEMBER

- HMS *Pandora*: On the trail of the *Bounty* ... John Murray
 Looking for exotic marine life? Don't
 leave the dock Franklin Jay Viola
 Northern hemisphere albatrosses Jean Kenyon
 Working underwater:
 A professional job John S. McKinna
 Seahorses William Arrigoni
 Fish faces in the kelp forest Norbert Wu
 The diving seal: A medical marvel Steve Kleene
 Banded octopus: Uncommon mimic
 Can overboard! Carl Safina

INDEX

NUMBER 1: JANUARY-FEBRUARY

Frederick Albert Cook, M.D.:	
Polar physician and explorer	Ralph M. Myerson
Oceanographic ships on stamps:	
HMS <i>Challenger</i>	Anthony L. Rice
Needles and Pins	David F. Donavel
Dolphins: One diver's	
touching experience	Wayne Grover
Reef shark attack! New clues raise new questions about	
why sharks bite people	Doug Perrine
Tunas: Athletes	
in a can	Peter G. Bushnell and Kim N. Holland
Inner space: Porosity of seafloor	
sediments	Charles T. Feazel
Ocean stations: Iron men and	
steel ships	Robert L. Scheina
A Fijian way of fishing	Maryellen Timmons

NUMBER 2: MARCH-APRIL

What is really killing the corals	Eugene A. Shinn
Caribbean coral reefs: Are they becoming	
algal reefs?	Brian E. Lapointe
The paper nautilus	Norbert Wu
The sea lions of Monterey	Steve Rosenberg
Purple-striped jellyfish	
Seafarers of the Caymans	Nancy Sefton
Eling Tide Mill	Trevor Holloway
National Lighthouse Day	H. James Saxton

NUMBER 3: MAY-JUNE

Shooting fish with sound	Roberta Friedman
Why the hammer head?	Richard Martin
Gulls: A sea guide	Sean Kirkpatrick
The reclamation of Holland	Pat Canova
In pursuit of the suburban squid	
..... Roland C. Anderson and Joyce E. Vanderwerff	165
The secret lives of sponges	Nancy Sefton
Sushi, sashimi, and sickness:	
Raw fish and parasites	Edwin S. Iversen
Nature's one-upmanship	C. Richard Robins

NUMBER 4: JULY-AUGUST

After an oil spill: Saving the birds	Douglas B. Lewis
8 Squid: The Southern Ocean's unknown	
quantity	Paul G. Rodhouse
14 Marine crocodiles	Tom Richie
18 Crawfishing in the Bahamas	Nicolas Popov
The frogfish: Disappearing angler	
28 Farming sea-ears: An abalone	
success story	Treve Johnson
31 The besieged bays of the world: Brown tide and	
other novel blooms	Trudy Bell
42 Why the dolphins died:	
The answer-To date	Sandra L. Hersh
49 Chased out to sea	Ben Masselink

NUMBER 5: SEPTEMBER-OCTOBER

The inundation of our coastlines: Past, present and future	
with a focus on South Florida	Harold R. Wanless
Reef fish feeding: Amusement or nuisance?	Doug Perrine
Antarctic tourism '89	Yvette Cardozo and Bill Hirsch
Snippets from <i>Nyanja Chronicles</i>	Bruce R. Rosendahl
The arrow crab: A spindly crawler	
Arms race on the grass flats	
..... Edwin S. Iversen and Darryl E. Jory	304
A truly fresh fish	Nancy Vander Velde

NUMBER 6: NOVEMBER-DECEMBER

HMS <i>Pandora</i> : On the trail of the <i>Bounty</i>	John Murray
Looking for exotic marine life? Don't	
leave the dock	Franklin Jay Viola
Northern hemisphere albatrosses	Jean Kenyon
Working underwater:	
A professional job	John S. McKinna
Seahorses	William Arrigoni
Fish faces in the kelp forest	Norbert Wu
The diving seal: A medical marvel	Steve Kleene
Banded octopus: Uncommon mimic	
Can overboard!	Carl Safina
